CAREER GOALS

I'm seeking to specialize more and more as a Front-end developer, where I can apply my experience and technical knowledge to develop applications, find solutions to various problems and offer support in the implementation and maintenance of systems. I want to contribute to clients by providing efficient solutions and maximizing system performance. I'm also looking to deepen my skills as a Back-end developer using technologies such as Node.js.

PROFESSIONAL EXPERIENCE

Amber Serviços de Tecnologia LTDA - Oracle Consultant

2022 - Present

Providing improvements and corrections to RightNow (Oracle) client environments; Assisting and configuring Oracle projects (RightNow and Fusion Service); Assisting, making improvements and errors for Salesforce clients;
